SUMMARY

Software Engineer skilled in Python and Machine Learning, with hands-on experience in developing end-to-end AI applications and deploying scalable ML solutions. Proficient in implementing and optimizing machine learning algorithms to solve real-world problems, and actively seeking opportunities in AI/ML engineering.

SKILLS SUMMARY

Programming Languages: Python, R, JavaScript, SQL
Technical Skills: Machine learning, Data Science, NLP, Computer Vision, Generative AI, Power BI, Data Mining
ML Libraries & Tools: PyTorch, TensorFlow, Scikit-learn, Pandas, NumPy, Data Analytics, Model Deployment
Frameworks: Flask, Django, REST APIs, ML Pipelines, LangChain, Git
Databases: MySQL, MongoDB
Platforms: AWS, GitHub, Linux, GCP, Arduino
Soft Skills: Problem Solving, Analytical Thinking, Communication

EDUCATION

- Dr. A. P. J. Abdul Kalam Technical University** U.P. India
Bachelor of Technology - Computer Science; GPA: 7.0 July 2021 - August 2025
- J.C.I.C.Prayagraj** Prayagraj, India
High School - 7.5 GPA Intermediate - 7.0 GPA July 2017 - April 2019

EXPERIENCE

- TechFest IIT Bombay – My Job Grow** Remote
Web Developer (Internship) Oct 2024 – Feb 2025
 - Modern Frontend Stack:** Built scalable and accessible web pages using **Next.js** and **Tailwind CSS**, reducing page load time by **30%** and ensuring mobile responsiveness across devices.
- Microsoft – Edunet** Virtual
Artificial Intelligence Intern Feb 2025 – May 2025
 - Machine Learning & NLP Development:** Designed and deployed **5+ machine learning models** using supervised and unsupervised learning techniques, achieving up to **90% accuracy** on validation datasets.
 - LLM Pipeline Implementation:** Built and integrated an **LLM-based NLP pipeline** involving data preprocessing, prompt engineering, and model inference to support text understanding and summarization tasks.
 - Applied AI & Deployment:** Performed data preprocessing, feature engineering, and pipeline optimization to enable scalable ML and LLM deployment in real-world applications.

PROJECTS

- Equity Sync Website – Web Platform for Stock Traders:** Designed and developed a high-performance, fully responsive web application enabling traders to track and analyze real-time profit and loss. Improved page load performance by **30%** and supported **100+ simulated user sessions** with responsive UI and optimized frontend logic. Tech: JavaScript, Tailwind CSS, Netlify
- AI-Powered eCommerce Platform (Recommendation & Fraud Detection):** Engineered an AI-driven e-commerce system implementing machine learning-based recommendation algorithms and fraud detection models. Increased simulated user engagement by **25%** and reduced fraudulent transaction patterns by **20%** using supervised learning techniques. Tech: Python, Scikit-learn, React, NLP Libraries
- AI Chatbot Using Machine Learning (NLP & GenAI):** Developed an intelligent chatbot integrating NLP and deep learning to handle both text and voice-based user queries in real time. Processed **1,000+ queries/day** with an average response latency under **1.5 seconds**, improving conversational accuracy and accessibility. Tech: Machine Learning, Scikit-learn, NLP, Generative AI
- YouTube Video Summarizer (ML, NLP & LLM Pipeline):** Built an end-to-end video summarization pipeline that extracts transcripts, preprocesses text data, and applies LLM-based NLP models for concise summary generation. Reduced content consumption time by **60%** and designed a modular pipeline enabling scalable inference across **100+ videos**. Tech: Python, NLP, Transformers, LLMs, Scikit-learn, Speech-to-Text APIs
- WhatsApp Bot (Machine Learning & NLP):** Implemented an automated WhatsApp chatbot in Python using NLP techniques to manage real-time user conversations and workflow automation. Handled **500+ automated interactions/day** with context-aware responses, reducing manual response effort by **40%**. Tech: NLP Libraries, OpenAI, NLU, Microsoft Bot Framework

CERTIFICATIONS

- Web Development Certification:** TechFest, IIT Bombay Feb 2025
- Artificial Intelligence Certification:** Edunet Foundation (Microsoft) May 2025
- Machine Learning with Python:** Internshala 2025
- JavaScript Mastery:** Lernux 2024
